CERTIFICATE

To check the implementation of the e-waste guidelines, there is a set of compliances and evidences that are required for your government records. This is included in the GPCB guidelines and has become mandatory for all the bulk consumers, traders and manufacturers and electronic and IT items.

We offer a complete set of compliances required for your records as per the GPCB guidelines. The entire process is streamlined and managed by our sustainability team for our client's satisfaction. We provide a 'Green Certificate' of our clients after the safe disposal of their e-waste. Being a government authorized recycler; it is our responsibility to follow all the compliances as per the law offer a hassle free service to our clients.

DATA DESTRUCTION

DATA DESTRUCTION CAN BE DONE BY THREE WAYS

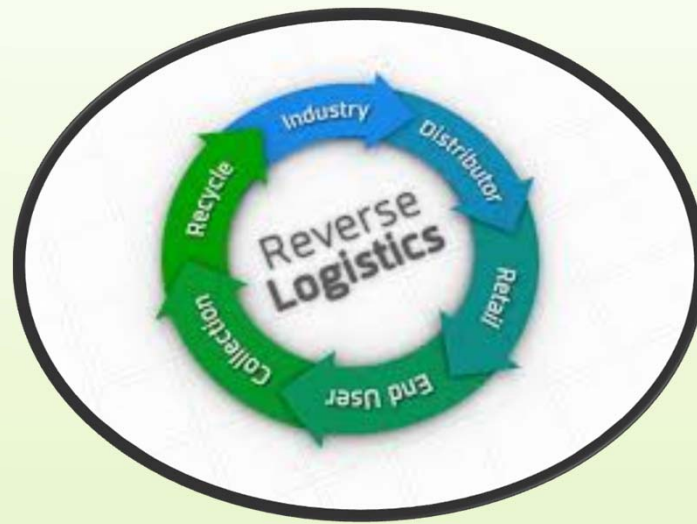

1. **Data destruction** is the process of destroying data stored on tapes, hard disks and other forms of electronic media so that it is completely unreadable and cannot be accessed or used for unauthorized purposes.
2. **Physical** : Physical destruction by shredding.
3. **Electronic Data Wiping** : We do the Electronic data wiping for SAS, SATA, SSD hard drives, tape drives which assures you a safe wiping with certification. Through the patented Erasure software your organizations now have a secure method to erase data on storage devices- regardless of underlying technology - in a cost-effective, secure and eco-friendly manner. Ensure your sensitive data has been permanently erased from your IT assets with the most certified disk erasure software solution on the market, with a 100% tamper-proof report.

EPR

We have a perfect solution for all bulk producers of electric and electronic equipment to meet their EPR targets. We ensure a transparent model of operation in the process with an expertise to meet the targets in a specified timeframe.

K.P international Pvt. Ltd. have adopted extended producer responsibility to help address the growing problem of e-waste used electronics contain materials that cannot be safely thrown away with regular household trash.

REVERSE LOGISTICS

K.P International Pvt. Ltd. has tie up for pickup with logistics operating company. reverse logistics has also been defined as the return/exchange, repair, refurbishment, remarketing and disposition of products. Reverse logistics has become an important way for companies to improve visibility and lower costs across the supply chain. The reverse logistics process starts with the point of consumption and ends at the point of origin, with the purpose of recapturing value or ensuring proper disposal.

SAFETY TRANSPORTATION

E-waste carrying identification slip

(will display on vehicle.)

close container/ vehicle

(will be arranged for the collection.)

Loading and unloading will be taken care

WEEE RECYCLING

Sustainable recycling comprises of three R's i.e. Reduce, Reuse and Recycle. Refurbishment or repair of used electronic assets to bring them back to life is the less polluting process of responsible recycling. The electronic gadgets and devices which have been discarded and no more in use are refurbished at our facility. We ensure all that the damaged parts are replaced by the best quality spare parts at a much cheaper costs.

Strengths

❑ Logistics detail

We offer secure and efficient collection, transportation, and storage services with detailed chain of custody tracking throughout the process. We can provide a variety of containers for onsite collection, audit and asset registration services on pickup, and either dedicated or consolidated routes and storage prior to processing. We have pickup van, trucks based on the quantity of the e-waste to be collected. Based on the quantity i.e if the quantity is more our pick up team will reach your site for collection within 7 days from the intimation. If the quantity of e-waste to be collected will be less, then pickup team will inform about their schedule route and time of collection.

❑ Door-step service

On receipt of information on the type and quantity of waste, we send a quote. Based on your approval we provide pick up facility for the waste from your location. If there is regular generation of e-waste, we can also depute our persons in organizing e-waste segregation and storage at your place. Currently we have office & storage and recycling facilities are available in Dahej.

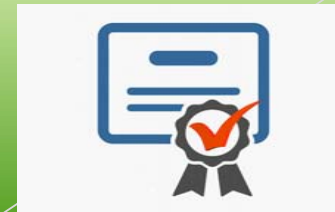

❑ Data Security

Our company commits for fully secured data sanitization of your highly sensitive data of your devices. Fully fledged laboratory and R&D center for continual improvement in recycling/reuse/reduce/recovery methodologies.

❑ Certification

On completion of the data destruction activity as per the requirement of the client, detailed lists of the hard disks or any other data devices shredded and a Certificate of Secured Data Destruction is being issued for the safety and record of the concerned client.
